Re: Application: Saint Joseph High School
Zoning Board of Adjustment Application
Block 2, Lot 1: 145 Plainfield Ave., Metuchen, NJ
MSB File No.: 77023-001

REQUEST FOR WAIVER OF SUBMISSION REQUIREMENTS

As noted on the application forms and checklists, the Applicant, Saint Joseph High School, requests certain submission waivers, including a waiver from submitting a survey. The waivers are requested as no new development is proposed, and only the use of temporary light fixtures are proposed. The Applicant submits that the plans and related documents submitted in relation to this Application satisfy the purpose and intent of the submission requirements, and, contain sufficient details and information for the Board to act on this Application. Additionally, waivers were granted by the Board for the prior 2011 and 2014 applications by this Applicant, and specifically a waiver from providing a survey was granted for the 2014 application, which approved the construction of the athletic field, and the present Application proposes temporary light fixtures around that athletic field.

Very truly yours,

FRANK H. LEHR ASSOCIATES
