Metuchen Downtown Alliance Presentation

The Mayor opened the Council discussion on Metuchen Downtown Alliance. He noted that at this time there will not be a resident comment period but if any resident would like to comment they may do so during the Public Comment period.

Councilmembers Inzerro and Muldoon explained how the Metuchen Downtown Alliance was set into motion and established; the work that has been done over the last two years, the structure of a 501c3 non-profit Downtown management organization, the Board of Trustees make-up, funding and budget, and plans for the future of a Special Improvement District.

The Council had a discussion/question period on the Business District area which included why other areas weren't included, the budget and funding, the Association structure and the benefits of having an Executive Director as well as many other benefits of forming a Special Improvement District.

Council Minute Approval

Council President Grayzel made a motion to approve the Borough Council minutes of March 21, 2016, Councilwoman Rasmussen second the motion, with all in favor, motion carried, 5-0.

Public Comment

Mayor Cammarano opened Public Comment to any members of the public wishing to speak.

Bill Allen, Kentnor Street, Metuchen thanked all the officials that have gone out to Kentnor Park to inspect the park and the efforts that the Public Works Department has done to date on cleaning up the park. He also is pleased with the noise reduction at the railroad yard. He is happy to hear that there is an effort being made to correct the 287/27 interchange/Bridge Street issues. He spoke on the Ordinance that was adopted to change the phone number on the cable bill and why it was a good ordinance to be updated. He listened to the presentation from last week on MDA before coming to tonight's meeting. He came to tonight's meeting feeling reluctant that MDA would work but after listening to the Council's discussion and watching last week's presentation, he feels that putting money back into the Borough is a good thing. Mr. Allen had other questions in regards to whether all businesses in Metuchen would be assessed the fees or just the businesses in the Improvement District and he would like to see something done about the conditions of the parking meters and if they are necessary at all on Main Street.

Mayor Cammarano addressed the issue with why Metuchen needs to maintain the parking meters. He stated that the Parking Authority is putting up wayfinding signage that will let the public know where parking is available in town. There were further responses from Councilmembers addressing the questions brought up by Mr. Allen.

Mayor Cammarano thanked Mr. Allen for bringing up the condition at Kentnor Park to the Council's attention.

Daniel Cea, 58 Robbins Place, Metuchen stated that he is in favor of the implementation of MDA. He believes that Metuchen needs to made a destination location to compete with the malls and internet. Mr. Cea spoke about Inn Place and was wondering if there have been any further decisions about making Inn Place a park.

Mayor Cammarano stated that there haven't been any further discussions at this point. There are different issues that need to be addressed and there is no determination as to the future of the property.

Nancy Jessen, 48 Graham Avenue, Metuchen is against the Downtown Alliance. She spoke on the sad condition of the sidewalks in the downtown. There is litter on Main Street and the sidewalks are all different and broken. She would like to see an entire streetscape plan put into place to make the Downtown look inviting.

Councilman Muldoon responded that he does agree with the conditions on the Downtown area. He doesn't agree with her solutions and responded why the Downtown Alliance will be beneficial to repairing the streetscape and other issues with downtown Metuchen.

Councilwoman Inserro also added how the MDA will benefit and support the downtown area.

Ms. Maier commented that currently there is a grant application that has been submitted for \$1,000,000 for Main Street Streetscape Improvements as well as discussions with NJDOT and NJTPA for more pedestrian/car safety improvements. With having the MDA in place, government agencies will be more apt to throw money to help with improvements to the downtown area.

Ms. .Jessen asked what the plan is for new parking meters.

Councilman Muldoon responded that there was a study done already and currently the first part of the plan is to implement the wayfinding signage, which has been started by the Parking Authority, and the next part will be to install new parking meters which will allow pay-by-cell for parking.

Linda Koskoski, 3 Goodwill Place is in favor of the MDA and as a former store owner stated that she would have welcomed the estimated \$20.00 assessment fee to pay for the organization and the help that it will provide the downtown stores.

Councilman Leibfried stated that just taking the proceeds from Pearl Street and putting that money into the sidewalks, there is still a missing part and that is having a centralized person who can take every part of the improvements and events and coordinate it as one great picture.

Tom Rockefeller, 36 Linden Avenue, Metuchen wanted to thank everyone for all the work spent on putting together a plan and moving forward with it. He feels that it is the best way to spend the tax dollars in the downtown area.

Bobbie Thievakumaran, East Chestnut Avenue, Metuchen and a member of the Metuchen Downtown Stakeholder Committee and wants to give her support for the creation of a Special Improvement District to help create the foundation for a downtown management organization.

Seeing no one else wishing to speak, Mayor Cammarano closed the Public Comment.
