

How to use a QR Code

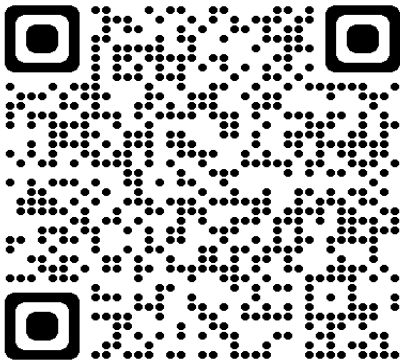

What is a QR Code?

- QR stands for Quick Response and is a quick and easy way to jump to a website or document while using your cellphone.

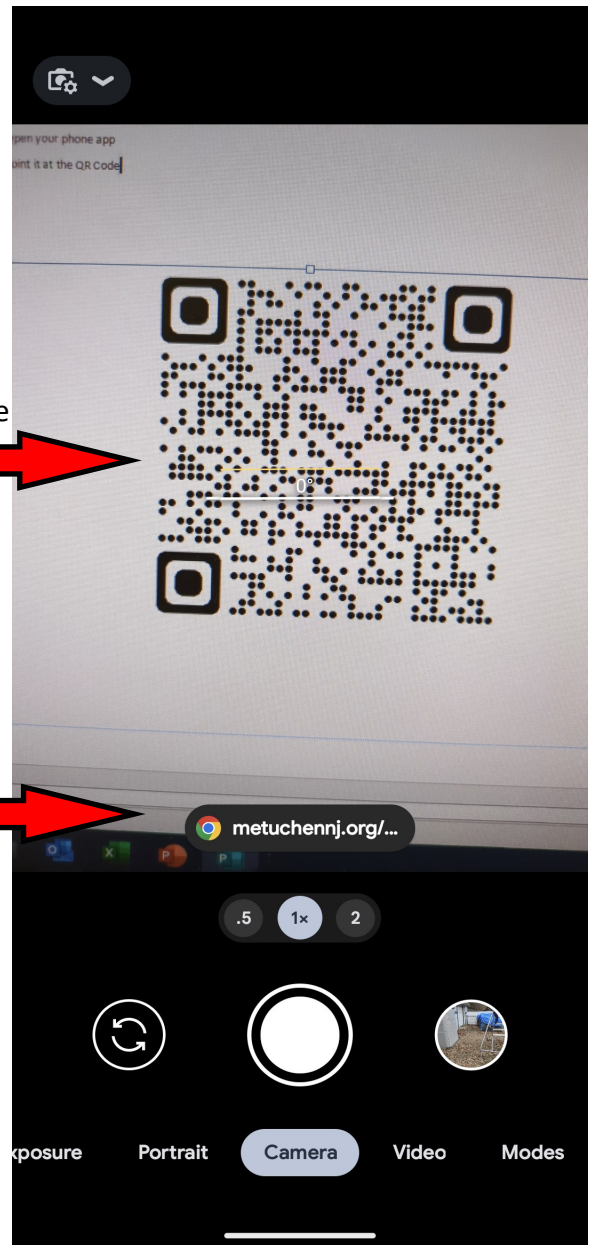

How does it work?

- Get out your cell phone
- Open your phone app
- Point it at the QR Code
- A pop up window will appear towards the bottom of your screen with the website or document name in it—touch that box and you will jump over to the website/document.
- You do **NOT** have to take a picture, just focus on the QR Code

Here is a QR Code that will point to the Senior Center Page of the Borough's website

Point camera at QR Code

The website/document name pops up here.
Touch it to go to website/document.
